Enes BİRİŞİK

Java Developer

I am a Backend Developer. I have experience building Web Applications, Middleware, RESTful APIs using languages and frameworks including Spring Boot, Hibernate, RDBMS and NoSql. I have a strong understanding of fundamental CS concepts like Object Oriented Programming, Aspect Oriented Programming, MVC Architecture, REST, SOAP, CI/CD and TDD as well as experience building software with more modern techniques, service-based architecture, and third-party API integration. I am also extremely rigorous and perfectionist in my code, excatly as an Backend Developer should be
